

*DuAll Heating and Cooling is a family owned business based in Bolingbrook, Illinois. We are licensed, bonded and insured. We service all types of furnaces, air conditioners, boilers, water heaters and sump pumps. We currently install **Westinghouse** and **Goodman** Heating and Air conditioning equipment. These companies offer our customers the most value and best warranties. Indoor air quality is a very serious issue and we are constantly learning new ways to improve our customer's living space. Our customers reside in Naperville, Bolingbrook, Woodridge, Lisle, Downers Grove, Lemont, Plainfield and other surrounding communities. Our philosophy is quite simple: We treat our customers as we would like to be treated. We are respectful, courteous, and above all, honest.*

DuAll is a member of the Bolingbrook Chamber of Commerce.

The Easiest Way to Save Money I've Ever Seen

You probably already know the importance of keeping your heating and cooling system tuned. Just like on your car, it saves you energy dollars and keeps things running smoothly. It can also help you avoid big repair bills. It's just smart.

Unfortunately, many people go season after season, thinking, "If it ain't broke, don't fix it." This can be costing you a small fortune. And not just in energy and repairs...

A system failure may be headed your way! Research shows that lack of maintenance is the #1 cause of a system failure. Have you budgeted the \$3,000-\$7,000 for a new system? I promise, "saving money" by not getting a tune-up can be very costly!

Save your system, your money

and repair hassles with a Preventive Maintenance Agreement. Our PMA gives you two seasonal tune-ups for smooth, efficient running, *plus* a full system safety check to keep you healthy and safe. All for just \$105. You get the two tune-ups, *plus* Priority Service, 15% parts discounts, free service reminders, and peace-of-mind just to start. Call us at (630) 247-1720 now to schedule your furnace tune-up and mention you want to save money with a preventative maintenance agreement. We will take care of you.

Winner of "Name the Newsletter" Contest

First off, we want to thank everyone who took the time and entered the contest. There were many excellent ideas submitted, but we had to decide on just one. The winning entry was submitted by Janet Clark. Janet brought to my attention that the best name for the newsletter was right there under our business name. So congratulations to Janet Clark and thanks, again, to everyone who entered.

Hello Friends,

Well, spring and summer have come and gone. I hope everyone had an enjoyable season. Lots of family gatherings, picnics, reunions and such. Seems to me that there were a lot of "perfect weather" weekends.

It was a wonderful summer capped off by an exceptional Summer Olympics. Paul Hamm's remarkable comeback win and the controversy that followed. His win of the men's all around gymnastic competition was first ever for the U.S. The men's 4x200 relay win over Australia was really exciting as was Carly Patterson's women's all around Gold medal. We took a gold medal in women's fencing, something that hasn't happened in over 100 years. Plus too many to list here. Congratulations to all the athletes who compete at the Olympics and everywhere.

As you can see, we have changed the format of the newsletter. We have a new name and a new layout. I received a lot of feedback from our customers over the last year. As a result, we have shortened it to two pages. We understand that your time is very valuable, and the last thing we want to do is waste it. Our intention is to give you some helpful tips and show you some ways to save a little money also.

Respectfully,

Larry

Quick Tips

Use these tips from the EPA to save energy

- Set your hot water heater to "low."
- When cooking, match pot size to burner size and keep a lid on it to avoid waste.
- Plant trees to shade the south side of your home from the hot summer sun
- Turning off your computer during

long periods of non-use cuts costs and improves longevity

- Clean or replace furnace and air conditioner filters once a month during heating and cooling season.

"If the engine in your car went out within 5 years, would the dealer give you a new car?"

I don't think so, but that guarantee sounds pretty good to us. And that is just the guarantee Westinghouse provides. It's called their "No-Lemon" warranty. If the heat exchanger or compressor (basically the "engine" of your systems) fail within 5 years, we'll replace your system FREE! Period. Most companies only replace the broken part. We don't feel that is fair. But that's not even the best part. Our systems give you the technology for fantastic energy savings and reliability. That's why we offer up to a full 10-year compressor warranty and a full 8-year parts warranty. *Can your savings be more than your payments?* With our 6 months "same as cash" plan, your energy and repair savings may be more than your payments. Find out for FREE! Call **DuAll Heating & Cooling** now at (630) 247-1720 to learn more or schedule a free energy survey on your old equipment.

"What's in a name?"

He wasn't always called "The Duke." In fact, John Wayne was actually born Marion Morrison, but he hated his first name because it sounded too feminine. When children would ask him his

name at school, he would tell them his last name instead. Then one day when he was walking by the fire station in Glendale, Calif., firefighters noticed that John had a dog named "Duke." Because they did not know John Wayne's name, they ended up calling him "The Duke." And it stuck with the great actor until his death in 1979

Turn your house into a Dream Home

Do you have a house that has rooms that are either too hot in the summer or too cold in the winter? Actually, this is more the norm than not. Fortunately there is help. It's called zoning and it not only gives you better control of your comfort, but saves you money as well. Better yet, it is backed by a 100% money back guarantee of your satisfaction. That's right! Up to one year from the date of installation, if you are not satisfied for any reason, we will remove the equipment and refund your money. And all the parts carry a full five-year warranty.

Would you like to light up the whole house every time you need lights in two or three rooms?

Well. That's what happens when you need heating or cooling in only one area of your home- yet you are forced to heat or cool the entire house. That's wasting valuable energy dollars for unoccupied rooms. With zoning, you can change all that. Zoning systems deliver the temperatures you need - **when you need it and where you need it!**

You can now get total comfort... because it's like having a furnace and air conditioner in every room. And zoning quickly pays for itself since it eliminates the wasteful heating and cooling costs to areas when they are not used. Call **DuAll Heating & Cooling** now at (630)247-1720 to schedule a free in-home estimate.
